

VETRO

Trasparenze e colori impreziositi da elementi in metallo creano vere e proprie opere d'arte. Arte che si tramanda da millenni, fortemente radicata nella tradizione veneta. Il vetro non smette mai di stupire; nasce dalla sabbia finissima, come per magia si trasforma e prende vita dalle abili mani dei Maestri Veneziani che sapientemente la sanno cogliere.

Transparency and colours embellished with metal elements create real works of art. This form of art has been passed down over thousands of years and is strongly rooted in the Veneto tradition. Glass is always surprising. It is obtained from very fine sand and, as if by magic, is transformed and comes to life in the gifted and skilful hands of Venetian Master Craftsmen.

Transparenz und Farbe, veredelt mit Metallelementen, schaffen wahre Kunstwerke. Eine Kunst, die seit Jahrtausenden weitergegeben wird und fest in der Kunst des Veneto verwurzelt ist. Das Material Glas löst immer wieder Staunen aus; es entsteht aus allerfeinstem Sand und verwandelt sich wie durch Zauberei, es erwacht durch die geschickten, meisterhaften Hände der venezianischen Glasbläser zum Leben, die alle seine Eigenschaften zu höchster Vollendung bringen
